even if it is a Free Withdrawal. Terminal Illness, Extended Care and Activities of Daily Living Riders: The withdrawal charge and MVA may be waived if the contract owner: Is diagnosed with a terminal illness, has extended care needs or requires assistance with activities of daily living. These riders are not available in all states. Required Minimum Distributions (RMDs): If clients purchase their annuity under a qualified plan (e.g., an IRA), the Internal Revenue Code directs that a minimum amount of retirement income must be paid each year beginning in the year the owner turns to age 70 1/2. These payments are known as RMDs. Withdrawal charges and MVA will not apply to RMDs attributable to a Power Index Plus contract at any time after issue, including the first contract year. RMD amounts do count against the 10% Free Withdrawal amount, thereby reducing or possibly eliminating the ability to take other Free Withdrawals within a contract year. Failure to satisfy the RMD requirements may result in a tax penalty. Clients should consult their tax advisor for more information. Annuitization Choices: Clients can choose from five options, AKA Income plans: 1) Life income; 2) Joint and survivor annuity; 3) Joint and survivor annuity with 10- or 20-year period certain; 4) Life annuity with 10- or 20-year period certain; and 5) Income for a specified period (5-30 years). Cash Surrender Value: Equals the greater of the Minimum Withdrawal Value or the contract value adjusted for any MVA, optional living benefit fee and withdrawal charge. Lifetime Income Plus is an optional guaranteed living benefit rider. The value on which guaranteed withdrawals and the rider fee are based; it is not used in the calculation of the contract value or any other benefits under the contract, and cannot be withdrawn partially or in a lump sum. The Income Base is initially equal to the first eligible premium; it is increased with each additional eligible premium.

No Free Withdrawals are allowed in the first contract year (unless required by state law or taken under Lifetime Income Plus or as Required Minimum Distributions). If Lifetime Income Plus is elected, clients may take out up to the maximum annual withdrawal amount (MAWA) without any company-imposed charges. Withdrawal Provisions/Contract Features

- The percentage of the benefit base available for withdrawal varies by rider, issue age and duration
- Benefit base stops growing when you begin guarantee withdrawals. Withdrawals prior to rider exercise or in excess of the guaranteed amount will reduce the benefit base and amount of future guaranteed benefits
- income withdrawals are taken from your contract value and will reduce the enhanced death benefit (if elected). Over time, contract value could be withdrawn entirely, leaving no death benefit.
- Withdrawals prior to rider exercise reduce the benefit base but do not stop the income roll-up. Roll-up is based on the premium adjusted for withdrawals
- Any withdrawals will reduce the family protection death benefit in the same proportion as the contract value is reduced
